Institut National des Sciences Appliqu es de Rouen.  
Universit  de Rouen.

ELSEVIER

**Author enquiries.** For enquiries relating to the submission of articles (including electronic submission) please visit this journal's homepage at <http://www.elsevier.com/locate/jqsrt>. For detailed instructions on the preparation of electronic artwork, please visit <http://www.elsevier.com/artworkinstructions>. Contact details for questions arising after acceptance of an article, especially those relating to proofs, will be provided by the publisher. You can track accepted articles at <http://www.elsevier.com/trackarticle>. You can also check our Author FAQs at <http://www.elsevier.com/authorFAQ> and/or contact Customer Support via <http://support.elsevier.com>.

**Advertising information:** If you are interested in advertising or other commercial opportunities please e-mail [Commercialsales@elsevier.com](mailto:Commercialsales@elsevier.com) and your enquiry will be passed to the correct person who will respond to you within 48 hours.

© 2013 Elsevier Ltd. All rights reserved.

This journal and the individual contributions contained in it are protected under copyright by Elsevier Ltd, and the following terms and conditions apply to their use:

#### **Photocopying**

Single photocopies of single articles may be made for personal use as allowed by national copyright laws. Permission of the Publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use.

For information on how to seek permission visit [www.elsevier.com/permissions](http://www.elsevier.com/permissions) or call: (+44) 1865 843830 (UK) / (+1) 215 239 3804 (USA).

#### **Derivative Works**

Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the Publisher is required for resale or distribution outside the institution. Permission of the Publisher is required for all other derivative works, including compilations and translations (please consult [www.elsevier.com/permissions](http://www.elsevier.com/permissions)).

#### **Electronic Storage or Usage**

Permission of the Publisher is required to store or use electronically any material contained in this journal, including any article or part of an article (please consult [www.elsevier.com/permissions](http://www.elsevier.com/permissions)).

Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the Publisher.

#### **Notice**

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made.

Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

#### **Funding body agreements and policies**

Elsevier has established agreements and developed policies to allow authors whose articles appear in journals published by Elsevier, to comply with potential manuscript archiving requirements as specified as conditions of their grant awards. To learn more about existing agreements and policies please visit <http://www.elsevier.com/fundingbodies>

**Publication information:** *Journal of Quantitative Spectroscopy & Radiative Transfer* (ISSN 0022-4073). For 2013, volumes 114–131 (18 issues) is scheduled for publication. Subscription prices are available upon request from the Publisher or from the Elsevier Customer Service Department nearest you or from this journal's website (<http://www.elsevier.com/locate/jqsrt>). Further information is available on this journal and other Elsevier products through Elsevier's website: (<http://www.elsevier.com>). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.

**Orders, claims, and journal enquiries:** please contact the Elsevier Customer Service Department nearest you:

**St. Louis:** Elsevier Customer Service Department, 3251 Riverport Lane, Maryland Heights, MO 63043, USA; phone: (877) 8397126 [toll free within the USA]; (+1) (314) 4478878 [outside the USA]; fax: (+1) (314) 4478077; e-mail: [JournalCustomerService-usa@elsevier.com](mailto:JournalCustomerService-usa@elsevier.com)

**Oxford:** Elsevier Customer Service Department, The Boulevard, Langford Lane, Kidlington, Oxford OX5 1GB, UK; phone: (+44) (1865) 843434; fax: (+44) (1865) 843970; e-mail: [JournalsCustomerServiceEMEA@elsevier.com](mailto:JournalsCustomerServiceEMEA@elsevier.com)

**Tokyo:** Elsevier Customer Service Department, 4F Higashi-Azabu, 1-Chome Bldg, 1-9-15 Higashi-Azabu, Minato-ku, Tokyo 106-0044, Japan; phone: (+81) (3) 5561 5037; fax: (+81) (3) 5561 5047; e-mail: [JournalsCustomerServiceJapan@elsevier.com](mailto:JournalsCustomerServiceJapan@elsevier.com)

**Singapore:** Elsevier Customer Service Department, 3 Killiney Road, #08-01 Winsland House I, Singapore 239519; phone: (+65) 63490222; fax: (+65) 67331510; e-mail: [JournalsCustomerServiceAPAC@elsevier.com](mailto:JournalsCustomerServiceAPAC@elsevier.com)

② The paper used in this publication meets the requirements of ANSI/NISO Z39.48-1992 (Permanence of Paper)

*Journal of Quantitative Spectroscopy and Radiative Transfer* has no page charges

### LASERS AND INTERACTIONS WITH PARTICLES 2012

|  |     |  |
|--|-----|--|
| <b>G. Gouesbet and M. Brunel</b>                                     | 1   | Lasers and interactions with particles, 2012: Optical particle characterization follow-up                                    |
| <b>G. Gouesbet</b>   | 7   | A scientific story of generalized Lorenz–Mie theories with epistemological remarks   |
| <b>J.A. Lock</b>   | 16  | Beam shape coefficients of the most general focused Gaussian laser beam for light scattering applications                    |
| <b>Z.J. Li, Z.S. Wu and L. Bai</b>                                   | 25  | Electromagnetic scattering from uniaxial anisotropic bispheres located in a Gaussian beam                                    |
| <b>B. Stout, B. Rolly, M. Fall, J. Hazart and N. Bonod</b>           | 31  | Laser–particle interactions in shaped beams: Beam power normalization  |
| <b>L. Han, Y.P. Han, J.J. Wang and G. Gouesbet</b>                   | 38  | Internal and near-surface field distributions for a spheroidal particle illuminated by a focused Gaussian beam: On-axis case |
| <b>Y.E. Geints, E.K. Panina and A.A. Zemlyanov</b>                   | 44  | Photonic jet shaping of mesoscale dielectric spherical particles: Resonant and non-resonant jet formation                    |
| <b>X. Zambrana-Puyalto and G. Molina-Terriza</b>                     | 50  | The role of the angular momentum of light in Mie scattering. Excitation of dielectric spheres with Laguerre–Gaussian modes   |
| <b>H. Suzuki and I.-Y. Sandy Lee</b>                                 | 56  | Mie scattering field inside and near a coated sphere: Computation and biomedical applications                                |
| <b>B. Mihiretie, J.-C. Loudet and B. Pouligny</b>                    | 61  | Optical levitation and long-working-distance trapping: From spherical up to high aspect ratio ellipsoidal particles          |
| <b>R. Li, K.F. Ren, X. Han, Z. Wu, L. Guo and S. Gong</b>            | 69  | Analysis of radiation pressure force exerted on a biological cell induced by high-order Bessel beams using Debye series      |
| <b>M. Šiler and P. Zemánek</b>                                       | 78  | Optical forces in a non-diffracting vortex beam  |
| <b>M. Šiler, L. Chvátal and P. Zemánek</b>                           | 84  | Metallic nanoparticles in a standing wave: Optical force and heating   |
| <b>S.H. Simpson, D.B. Phillips, D.M. Carberry and S. Hanna</b>       | 91  | Bespoke optical springs and passive force clamps from shaped dielectric particles  |
| <b>D. Jakubczyk, G. Derkachov, M. Kolwas and K. Kolwas</b>           | 99  | Combining weighting and scatterometry: Application to a levitated droplet of suspension                                      |
| <b>H. Yu, F. Xu and C. Tropea</b>                                    | 105 | Spheroidal droplet measurements based on generalized rainbow patterns  |
| <b>M. Brunel, H. Shen, S. Coetmellec, D. Lebrun and K. Ait Ameer</b> | 113 | Phase contrast metrology using digital in-line holography: General models and reconstruction of phase discontinuities        |
| <b>L. Bressel, R. Hass and O. Reich</b>                              | 122 | Particle sizing in highly turbid dispersions by Photon Density Wave spectroscopy   |
